

WHEAT IN THE UK

This table shows how much wheat is produced in different regions of the UK in the year 2005–2006.

| Region of the UK | Tonnes of wheat grown each year |
|--------------------------|---------------------------------|
| North East | 558,000 |
| North West | 191,000 |
| Yorkshire and Humberside | 1,876,000 |
| East Midlands | 2,871,000 |
| West Midlands | 1,117,000 |
| East | 3,940,000 |
| South East | 1,887,000 |
| South West | 1,285,000 |
| Wales | 100,000 |
| Scotland | 845,000 |
| Northern Ireland | 66,000 |

1. Plot a suitable graph or chart to present the data given in the table.
2. Which region grows the most wheat? Suggest some reasons why this might be the case.
3. What percentage of the total UK wheat crop is grown in this region?
4. Which region grows the least wheat? Suggest some reasons why this might be the case.
5. Apart from being milled into flour, what else can the wheat crop be used for?
